Dear FILUM friends

At a birthday party of my wife Brigitte (84) with a concert in the FILUM dedicated to her, I reminded our KSG members about the secrets of how the FILUM came about. In the foyer visitors can also read something new. What were the decisive reasons and many coincidences for our highly praised FILUM?

Not for nothing I had a bust made for people who don't know me - and for the world after me. It only shows my head; not what was going on inside him, what was behind him and what led KSG to the FILUM in 2012 besides too much else.

Consciously as thanks and reference to my ancestors and decisive coincidences in my life I had the number 1565 added before. So is the Bonhoeffer quote.

Without their background there would be no FILUM.

Bonhoeffer's wonderful philosophical words paved the way for my wife Brigitte to me one day after my 50th birthday (28 Oct. 1982) as a wonderful coincidence. The new meaning of life, enriched for both of us in this way, also with love for our music enthusiastic youth, founded the joint decision for the FILUM. For the many young music lovers, this **FILUM-Karl-Schlecht music school** named after me is to become their home. Here, a growing love of music is supposed to give meaning and joy for a successful life in the later profession.

Let the short text attached today illustrate this to our Filum visitors.

The great wisdom of Dietrich Bonhoeffer, murdered by *German* Nazis, illustrates what can become of German people despite knowing primeval human values if they give their trust to a criminal leader. My father recognized this as an athlete in 1928, and throughout his life he was an opponent of the Nazi regime and, like me, was more of a social-democratic thinker. Thank God he came back in 1945 - when Hitler's opponents had already joined the military in mid-1939 - in one piece. He gave me the idea of building a mortar pump as a student. He, too, is a direct source of ideas to which this FILUM owes its existence. As a plasterer craftsman he bought and played a piano for

himself even before I was born in 1932. How happy he would be about our FILUM today! He is like one of my ancestors - Mathäus Schlecht 1807 - on the historic Bernhaus cemetery of the Old Pietists - buried since 1976 - only a few meters away from my dear parents on the east side of the new cemetery.

Briefly to the terms used above from the encyclopedia

### **wisdom**

*Wisdom:*

*1. understanding wisdom, life experience, spiritual, inner maturity; superior knowledge, learning; the... of age; with its... at the end, to be finished (fig.; umg.) no longer know, perplexed his 2 wise saying (folk), wise statement, **clever teaching**; the book is full of (fine)... en (too wise).*

### **mission statement**

*Philo-sophie - literally love of wisdom; doctrine of knowledge, of the origins and context of things in the world, of being and thinking.*

*Phi-lo-sophie-ren - philosophy, to **think about the origins and the essence of things**; to speak thoughtfully about something, to seek.... to recognize in conversation.*

...As I try to explain here for FILUM friends - to contribute to the realization for visitors how and why all this was given to me or us, with which we will in future support other young people for their successful lives and thus bring lasting joy. Being inspired by role models, so to speak, to do better in one's own life.
